1. IDENTIFICATION

1.1 Product identifier

Trade Name: D-Bact™ Industrial Cleaner · Disinfectant · Virucide · Deodorizer · Mildewstat · Sanitizer
Product Code: 7102ES

1.2 Relevant identified uses of the substance or mixture and uses advised against

Uses of the Substance/Mixture: EPA Registration Number: 10324-81-74928
Disinfectant / Food-Contact Sanitizer. This product is intended to be diluted prior to use.
For further information refer to the EPA Registered product label. Uses other than those identified are not recommended.

Product dilution information:
Disinfectant: 2-3½ ounces per 4½ gallons; Sanitizer: 1-2½ ounces per 4 gallons; Laundry sanitizer: 16 ounces per 100 pounds laundry. Refer to EPA registered label for product dilution/application directions for use.

2. HAZARD IDENTIFICATION

2.1 Emergency overview

Appearance: Clear solution with characteristic odor
Precautionary statements: Causes severe skin burns and serious eye damage
Harmful if swallowed

GHS classification
Health
Serious eye damage/eye irritation Category 1
Skin corrosion/irritation Category 1B
Acute toxicity (oral) Category 4
Acute toxicity (dermal) Category 4

Product at Use-Dilution
Causes eye irritation Category 2B

2.2 GHS label elements, including precautionary statements

Hazard pictograms/symbols

Signal Word: DANGER!
Hazard Statements:
H302: Harmful if swallowed
H312: Harmful in contact with skin
H314: Causes severe skin burns and eye damage

Precautionary Statements:

Prevention
P262: Do not get in eyes, on skin, or on clothing
P264: Wash affected areas thoroughly after handling
P270: Do not eat, drink or smoke when using this product
P280: Wear protective gloves and eye, face and foot protection

Response
P301+312+330+331: IF SWALLOWED: Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell. Do NOT induce vomiting.
P303+P361+P333: IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water
P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P310: Immediately call a POISON CENTER or doctor/physician
P363: Wash contaminated clothing before reuse

Storage
P233: Keep container tightly closed
P234: Keep only in original container and dispose in accordance with applicable regional, national and local laws and regulations.
Product at Use-Dilution
Hazard pictograms/symbols None
Signal Word: Warning
Hazard Statements: H320: Causes eye irritation
Precautionary Statements:

Prevention P264: Wash affected areas thoroughly after handling
Response P305+P351+P338+P337+P313: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

Product at Use-Dilution
Within the present knowledge of the supplier, this product does not contain any hazardous ingredients in quantities requiring reporting, in accordance with local regulations.

4. FIRST AID MEASURES

4.1 Description of first-aid measures
General advice: Show this material safety data sheet to medical personnel. Do not leave affected person unattended. Isolate exposed apparel for laundry before re-use.
Eye contact: Rinse eyes with water. Remove any contact lenses, and continue flushing eyes with running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Seek medical attention if irritation develops or persists.
Skin contact: Take off contaminated clothing and shoes immediately. Wash affected areas with plenty of water. Seek medical attention if irritation develops or persists.
Ingestion: Do NOT induce vomiting. Do not give anything by mouth to an unconscious or convulsing person. Rinse mouth with water. Seek medical attention.
If inhaled: Remove from area to fresh air. Seek medical attention if respiratory irritation develops or if breathing becomes difficult.

4.2 Most important symptoms and effects, both acute and delayed
Risks: The most important known symptoms and effects are described in the labeling (section 2.2) and/or in section 11. Corrosive effects. Symptoms may include stinging, tearing, redness, swelling and blurred vision. Permanent eye damage including blindness could result. Prolonged or repeated skin contact may aggravate existing skin conditions. Inhalation of mists may aggravate existing chronic respiratory conditions such as asthma, emphysema or bronchitis.

4.3 Indication of any immediate medical attention and special treatment needed
Note to physician: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred. Treat symptomatically.
5. **FIRE FIGHTING MEASURES**

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Introductory remarks:
These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and piping systems for maintenance and repairs. Waste resulting from these procedures should be handled in accordance with Section 13: Disposal considerations.

Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

8.1 Control parameters

8.2 Exposure controls
Control measures
Engineering measures: Good general ventilation should be sufficient to control airborne levels. Respiratory protection is not required if good ventilation is maintained.

Personal protective equipment
Respiratory protection: In operations where mists are generated, wear a NIOSH/MSHA approved respirator that has been selected by a technically qualified person for the specific work conditions.
Hand protection: Wear long chemical resistant gloves. Observe instructions regarding permeability and breakthrough time provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion and contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection: Wear chemical splash goggles.
Skin and body protection: Wear footwear protecting against chemicals, and impervious clothing. Choose body protection according to the amount and concentration of the substances in the workplace.

Hygiene measures: Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:
1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
3) Wash exposed skin promptly to remove accidental splashes or contact with material.

Protective measures: Ensure that eyewash stations and safety showers are close to the workstation location, and that emergency equipment is immediately accessible with instructions for use. The protective equipment must be selected in accordance with current local standards and in following proper use instructions from the supplier of the protective equipment. Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.

Product at Use-Dilution
Respiratory protection: A respirator is not needed under normal and intended conditions of product use
Hand protection: No protective equipment is needed under normal use conditions
Eye protection: No protective equipment is needed under normal use conditions
Skin and body protection: No protective equipment is needed under normal use conditions
Hygiene measures: Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:
1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored
2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet
3) Wash exposed skin promptly to remove accidental splashes or contact with product
9. PHYSICAL AND CHEMICAL PROPERTIES

Physical and chemical properties listed represent typical properties and should not be considered product specifications. Refer to product Certificate of Analysis for Product Specifications or contact Mason Chemical Company for additional information.

11. TOXICOLOGICAL INFORMATION

Product Summary:
Causes severe skin burns and serious eye damage. Harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly digestive tract. Vapors and spray mist may irritate throat and respiratory system and cause coughing.

No data available for the teratogenicity, mutagenicity, or reproductive toxicity of this product. No data available to designate the product as causing specific target organ toxicity through repeated exposure. No data available to designate product as an aspiration hazard.

Information on likely routes of exposure:
Eye contact Corrosive. Causes serious eye damage. Symptoms may include pain, burning sensation, redness, watering, blurred vision or loss of vision.
Skin contact Corrosive. Causes severe burns. Symptoms may include burns, blisters, redness and pain (which may be delayed).
Ingestion Harmful if swallowed. Causes burns/serious damage to mouth, throat and stomach. Symptoms may include vomiting, nausea, and/or feeling of general unwellness.
Inhalation May cause irritation and corrosive effects to nose, throat and respiratory tract. Symptoms may include coughing and difficulty breathing.

Sensitization No known effects

**Product at Use-dilution Product Summary:**

Causes eye irritation.
No data available for the teratogenicity, mutagenicity, or reproductive toxicity of this product. No data available to designate the product as causing specific target organ toxicity through repeated exposure. No data available to designate product as an aspiration hazard.

**Information on likely routes of exposure:**

Eye contact Causes eye irritation. Symptoms may include irritation, watering, redness
Skin contact No known significant effects or critical hazards
Ingestion No known significant effects or critical hazards
Inhalation No known significant effects or critical hazards
Sensitization No known effects

11.1 **Information on toxicological effects**

**Acute toxicity**
- Acute oral: LD_{50} 344-366 mg/kg
- Acute dermal: LD_{50} 1500-3340 mg/kg
- Acute inhalation: No information available
- Acute toxicity (other): No information available

**Skin corrosion/irritation**
- Skin irritation: Corrosive. Causes severe burns

**Serious eye damage/eye irritation**
- Eye irritation: Corrosive. Causes serious eye damage

**Respiratory or skin sensitization**
- Sensitization: Not classified as sensitizing by skin contact

Product at Use-dilution

**Acute toxicity**
- Acute oral: LD_{50} >5000 mg/kg
- Acute dermal: LD_{50} >2000 mg/kg
- Acute inhalation: No information available
- Acute toxicity (other): No information available

**Skin corrosion/irritation**
- Skin irritation: No known significant effects or critical hazards

**Serious eye damage/eye irritation**
- Eye irritation: Causes eye irritation

**Respiratory or skin sensitization**
- Sensitization: Not classified as sensitizing by skin contact

**Mutagenicity**
- Genotoxicity in vitro: No information available
- Genotoxicity in vivo: No information available

**Carcinogenicity**
- Carcinogenicity: This product does not contain any ingredient designated as probable or suspected human carcinogens by IARC, ACGIH

**Toxicity for reproduction and development**
- Toxicity to reproduction/fertility: No information available
- Developmental toxicity/teratogenicity: No information available

**Specific Target Organ Toxicity (STOT)**
- STOT-single exposure: No information available
- STOT-repeated exposure: No information available

**Aspiration toxicity**
- Aspiration toxicity: No information available

Other Hazards
No information available

12. **ECOLOGICAL INFORMATION**

12.1 **Toxicity**
- Aquatic toxicity: Toxic to aquatic life

12.2 **Persistence and degradability**
12.3 Bioaccumulative potential
    Partition coefficient: n-octanol/water: No bioaccumulation is to be expected (log Pow<=4)
    Bioconcentration factor (BCF): No information available

12.4 Mobility in soil
    Known distribution to environmental compartments: No information available

12.5 Results of PBT and vPvB assessment
    No information available

12.6 Other adverse effects
    Environmental assessment: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this product.

13. DISPOSAL CONSIDERATION

13.1 Waste treatment methods
    PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental control agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.
    Product disposal: Disposal should be in accordance with applicable regional, national and local laws and regulations.
    Packaging: Remove all residue when emptying and dispose in accordance with applicable regional, national and local laws and regulations.

Product at Use-Dilution
    Waste treatment methods
    PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental control agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.
    Product disposal: Disposal should be in accordance with applicable regional, national and local laws and regulations.
    Packaging: Dispose container in accordance with applicable regional, national and local laws and regulations.

14. TRANSPORT INFORMATION

    DOT Hazard Classification: UN number: 1903
    UN proper shipping name: DISINFECTANTS, LIQUID, CORROSIVE, N.O.S. (QUATERNARY AMMONIUM COMPOUND)
    Transport hazard class(es): 8
    Packing group (if applicable): II

Product at Use-Dilution
    DOT Hazard Classification: Not applicable
